

# Jasmine Canada

**J**asmine Canada will be a busy girl this summer. She is a youth entrepreneur and owner of **Taste of Nature Raw Ginger Juice**. She will be promoting her new product at a special event at the North Laurel Community Center on Saturday, June 17. The **Inspirational Spirit of the Phoenix Inc.** is holding a membership drive at the community center themed "I Define Me." The non-profit organization focuses on empowering girls to grow as "confident, intelligent and independent young ladies" according to Jasmine. She has formed friendships and enjoyed listening to motivational speakers and participating in workshops. The Inspirational Spirit of the Phoenix also assists with book drives and organic and vegan food drives for single parents. It is starting a new chapter in its youth division.

The **Taste of Nature Raw Ginger Juice** can be purchased at **David's Natural Market** in Columbia and is used in one of the signature drinks at the restaurant **Jazz's Island Cuisine** at the **Harper's Choice Village Center** in Columbia. Jasmine told me she was motivated to create something healthy and beneficial and is looking forward to creating more products that promote health and wellness. Her mother and older brother, Jabari, have been very supportive as they encourage her on the path to becoming a successful entrepreneur.
